Swim ladder - white
Electrical post - white
Bluefin LED pathway lighting

A photograph of a modern waterfront property. In the foreground, a long, narrow wooden dock extends from a rocky shore into a body of water. The dock has white vertical boat defenders along its sides. To the right of the dock, a white SUP rack is mounted on the shore. In the background, a house with a dark metal roof and a white-trimmed gable end sits on a raised foundation. A glass-enclosed porch wraps around the house. To the left of the house, a wooden pergola stands on the deck. The property is surrounded by lush green trees and shrubs.

A photograph of a modern wooden dock extending into a body of water. The dock features a swim ladder with white railings on the left side. The decking is made of dark brown composite material, and the railings are white. The dock is supported by dark wooden pilings. The water is calm with gentle ripples. The overall scene is serene and well-maintained.

A photograph of a floating dock system on a body of water during sunset. The dock is constructed from gray composite decking with a picture frame and fascia in a darker gray. A boat with a black cover is suspended by a black swim ladder on the left. Two black Adirondack chairs are positioned on the dock. A black lamp post stands near the chairs. The background shows a calm lake reflecting the orange and yellow light of the setting sun, with distant mountains visible on the horizon.
